

ARTC National Track Safety Awareness

Course

TLIF2080 Safely access the rail corridor is a mandatory requirement for all contractors working within Australian Rail track Corporation (ARTC) and Country Rail Network (CRN) rail corridors.

It provides awareness of legal obligations, critical safety requirements and hazards that works must be able to identify and deal with when conducting contracts inside the rail corridor.

Medical

All contracts working on the railway must pass a health assessment to confirm they are fit to carry out such work.

Medicals are only accepted if they are performed by an Approved Practitioner. The minimum requirement is a Category 3 Medical which includes;

- Drug & Alcohol testing
- Hearing, vision and mobility testing

Requirements

- 100 points of identification
- Must be able to read, write, understand and speak English
- Must be over the age of 17 years old (If you are not, please contact the office for further details)
