

# Certificate II in Rail Infrastructure

## *Mandatory Core Units - Information*

**COURSE:** The Certificate II in Rail Infrastructure (TLI21315) requires 16 units of competence to be completed to prior to being issued with a Full Certificate II. These 16 units are divided into TWO sections:

- Mandatory
- Specialised

The Rail Safety Act and Rail Safety Legislation means all rail infrastructure personnel working within the rail sector must attain minimum competency standards prior to carrying out work within the rail corridor.

This includes:

- Track Workers (installation and maintenance)
- Track Inspection and Examiners
- Plant and Mobile Plant Operators

The Mandatory Units are:

TLIB1028 Maintain and use hand tools  
TLID1001 Shift materials using manual handling methods  
TLIE1003 Participate in workplace communications  
TLIF1001 Follow work health and safety procedures  
TLIF2010 Apply fatigue management strategies  
TLIU2008 Apply environmental procedures to rail infrastructure

*Elective Units gained on the day:*

TLIB2085 Apply track fundamentals  
TLIW2001 Operate under track protection rules

# Certificate II in Rail Infrastructure

## *Cost, Duration, Pre-requisites, RPL, SoA*

### DURATION:

- 1 to 2 days depending on industry experience.

### LOCATION:

- At our training facility in Chullora, NSW
- At client's premises depending on group numbers.

### COST:

- \$400 per person incl of GST.  
(minimum of 3 participants per class)
